Attention: RV-12 Builders!

Avionics Kit news...Garmin discontinues 296/396, lowers prices on 495/496!

Garmin announced that they are discontinuing production of the popular 296 and 396 handheld GPS units. They will continue to support these units for the foreseeable future. Van's still has a few 396s in stock as of Oct 26th. If you're hoping to install this unit, best to act now.

The good news is that Garmin simultaneously announced a PRICE REDUCTION on the 495 and 496. Customers who have not received their 495/496 Avionics Kits will receive the reduced pricing. See Avionics Kit order form for current pricing.

Henceforth, RV-12 Avionics Kits will only be available with the 495/496 option. We know..."not much of an option" but, they did DROP THE PRICE!!! Wow!

Have fun building!
