## **Service Bulletin 10-1-4**

**Date:** January 4, 2010

**Subject:** RV-10 Door Safety Latch

**Affected Models:** RV-10

**Required Action:** Install Door Safety Latch

**Time of Compliance:** Before further flight

**Synopsis:** Failure to secure the RV-10 doors properly may result in damage or the doors detaching from the airplane in flight. The safety latch provides additional passive security in the event that a door is not closed properly and the door warning lights malfunction, or are not observed.

**Method of Compliance:** Install safety latch parts in accordance with instructions in Section 45A of RV-10 construction manual.

## Additional Information

1-04-10

### Service Bulletin 10-1-4

This SB relates to additional parts and instructions to install safety latches on the RV-10 doors. It is applicable to all RV-10 Finish kits shipped prior to 01-04-2010.

Parts and instructions to comply with this SB will be sent to all RV-10 FINISH KIT owners (including all known flying airplanes) of record by the end of January 2010. All RV-10 finish kits shipped after the above date will include the latch parts.

If you have received the parts and instructions in the mail, but no longer own the RV-10 airplane or kit, please forward the parts and documentation to the current owner or send Van's contact information for the current owner.

If you are viewing this information subsequent to February 2010, and own a flying RV-10, but have not received these parts, contact Van's to obtain them and the installation instructions.

Thank you,

Van's Aircraft, Inc
