Van's Aircraft, Inc. has an OEM agreement with Hartzell Propellers that allows us to offer new constant-speed propellers at favorable prices. This agreement has several requirements:

- Hartzell props are available only to RV builders with a Van's customer number and must be installed on the corresponding airplane.
- Builders must have purchased, or have on order, all kits through the Finishing Kit for that customer number.
- Only one prop may be purchased per customer number.
- Only the models listed are available.
- Van's does not maintain a stock of propellers. A 25% **non-refundable** deposit is required with order. Payment in U.S. funds: check, money order, or Visa, Mastercard, Discover.
- **Full payment must be received before shipment.**
- Props will ship directly to the customer (USA orders) or to Van's (overseas orders).
- Charges from either Hartzell and Van's Aircraft will be added prior to shipping. Amount varies by destination.
- Prices subject to change without notice. Customer instigated delays may result in price increases.
- To ensure proper shipment, this form must be completed, signed, and included with order.

Propellers are supplied with mounting bolts and spacers. Spinners are supplied with the Finishing Kit except for composite-blade props which require the Hartzell spinner. Not all aircraft engines are compatible with constant-speed propellers. It is the builder's responsibility to determine whether a propeller is compatible with their engine/airframe.

**NOTE: The product price is "ON DELIVERY", not the price at the time of placement of the order. Historically, Hartzell raises prices effective January 1<sup>st</sup> each year with typical lead times of 4-6 weeks. Order at least 6 weeks before January 1<sup>st</sup> to avoid the increase.**
