LYCOMING NON-CERTIFIED ENGINE ORDER FORM

Customer Number (assigned w/ emp kit)		Full Name	
Day Phone		E-mail	
Eve. Phone		Fax	
Mailing Address		Shipping Address (if different)	

Van's Aircraft, Inc. has an OEM agreement with Lycoming Engines that allows us to offer factory-new engines at very favorable prices. This agreement has several requirements: Engines are available only to RV builders with a Van's customer number and must be installed on the corresponding airplane. Builders must have purchased, or have on order, all kits through the Finishing Kit for that customer number. Only one (1) engine per Customer Number may be purchased. Only the models listed below are available. Customer instigated delays may result in price increases. Prices subject to change without notice.

- Certified engines have all the certifications necessary to install them in a production airplane and are available upon request. Non-certified engines are functionally and mechanically identical, but do not have the certifications, which are not required for airplanes licensed in the Experimental category.
- All engines are equipped with roller tappets, dual magnetos, ignition harness, fuel pump, starter, vacuum pump drive, prop governor drive, and Avstar carburetor or injector. 149 tooth ring gear. Alternators, exhaust systems, vacuum pumps, governors, etc. vary according to aircraft type and are not supplied.
- Van's does not maintain a stock of engines. A 25% non-refundable deposit is required with order. Full payment must be received before shipment.
- Within the USA/Canada engines ship directly to the customer from Lycoming. Higher shipping charges apply to engines shipped to Alaska, Hawaii, and Canada. Exact amounts depend on destination and will be billed separately. International orders will ship to Van's. Shipping charges below apply. Shipping charges from Van's to final destination additional. To ensure proper shipment, this form must be completed, signed and included with order.
- Payment in U.S. funds: check, money order, or Visa, Mastercard, or Discover.

NON-CERTIFIED LYCOMING ENGINES with 2 Magnetos (one plain, one impulse, or retard for 540 (v=vertical, h=horizontal, fp=fixed pitch, cs=constant speed) See Over for E-Mag Option

Engine Model	HP	Induction	Prop Type	Cylinders	Notes	Non-Cert Price		ENPL
YO-320-D1A	160	v	fp/cs	4	Suitable for RV-3, 4, 6/6A, 7/7A, 8/8A, 9/9A			YENPL-RT10401
