TIG Welder Position – Aurora, Oregon

Are you a team player, with a positive attitude, who wants a career with a solid company? If you have the right skills, reliable transportation and a great work ethic, this is could be the job for you.

Job Requirements:

The successful candidate and employee will have general knowledge of both A/C and D/C machine setup. You must be able to weld .035 thick aluminum tubing and .045-.25 steel tubing repeatedly, with consistency, and you must also be capable of reading engineering drawings and welding symbols. We will also consider applicants who are proficient welding 4130 steel. We are an aerospace company, so quality and consistency of work is critical. Forklift experience is a plus, but is not required.

Note: All applicants will participate in a practical welding test as part of the interview process.

Working Conditions:

The work shift is 4:30 am to 3 pm, four days per week. This is a production welding job, so you need to be able to sit and stand for long periods of time during the workday.

Benefits:

Benefits include health, dental, short-term disability and life insurance. We offer paid leave and competitive wages. The company offers a 401(k) plan with company match and an Employee Stock Ownership Plan. We also have financial health and wellness benefits for employees.

If you are offered a position, you will be required to complete and pass a pre-employment drug screening.
